# Independent Auditor's Report

The Board of Directors Cal Poly Pomona Foundation, Inc. (A California State University Auxiliary Organization)

Report on the Audit of the Financial Statements

# Opinions

We have audited the financial statements of the business-type activities and the aggregate remaining fund information of Cal Poly Pomona Foundation, Inc. (the "Foundation"), a component unit of California State Polytechnic University, Pomona as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Foundation's basic financial statements as listed in the index.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the Foundation as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 to 12, the Schedule of Foundation's Proportionate Share of the Net Pension Liability on page 48, the Schedule of Foundation Contributions on page 49, and the Schedule of Changes in Net OPEB Liability and Related Ratios on page 50 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an

opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Foundation's basic financial statements. The accompanying supplementary information on pages 52 to 66 is presented for purposes of additional analysis as required by an Administrative Directive dated June 24, 2003, Financial Reporting Requirements for Auxiliary Organizations, from the California State University Office of the Chancellor, and is not a required part of the basic financial statements.

The accompanying supplementary information on pages 52 to 66 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information on pages 52 to 66 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2024 on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

Management's Discussion and Analysis

### Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

#### Introduction

The Cal Poly Pomona Foundation, Inc. (the "Foundation") is a nonprofit organization formed to support and advance the mission of California State Polytechnic University, Pomona (the "University"). To fulfill this mission, the Foundation pursues a wide range of opportunities through the development and administration of research and educational grants and contracts; conducting commercial activities including dining services, bookstore/retail, a conference center/hotel, apartment style housing, continuing education, and agricultural aid to instruction; the management of the Foundation's support programs and real estate activities; the development and administration of the Affordable Faculty/Staff Housing Program, a research park, special programs, and other similar activities on behalf of the University. The employment and training of students is a key priority of the Foundation.

The following discussion and analysis provide an overview of the financial position and activities of the Foundation for the year ended June 30, 2024.

This discussion and analysis have been prepared by management, and should be read in conjunction with the financial statements and notes.

# **Overview of the Financial Statements**

This annual report consists of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board ("GASB") principles, and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Included in this report are the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, Statement of Cash Flows, Statement of Fiduciary Net Position, and the Statement of Changes in Fiduciary Net Position, which will provide a comprehensive financial overview of the Foundation's operations.

#### Statement of Net Position

The Statement of Net Position includes all assets, deferred outflows and inflows of resources, liabilities, and net position of the Foundation. The statement also identifies major categories of restrictions on the net position of the Foundation.

#### Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents revenues earned and expenses incurred during the year on an accrual basis.

#### Statement of Cash Flows

The Statement of Cash Flows provides relevant information about the sources and uses of cash during the year. In addition, it provides information on the effects that cash and noncash investing, capital, and financing transactions during the year have on the Foundation's financial position.

#### Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position

Fiduciary funds are used to account for resources held for the benefit of parties outside the Foundation. The Foundation holds funds for the declining balance programs (Bronco Bucks, Meal Points). The Foundation's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. Fiduciary funds are not reflected in the Foundation's financial statements because the resources of those funds are not available to support other Foundation activities.

# Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

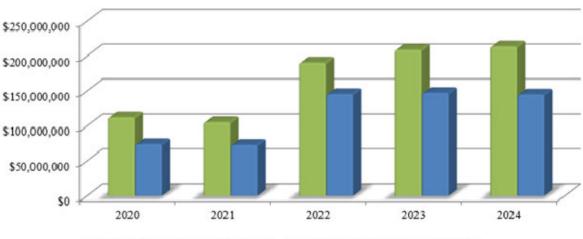

These statements are supported by notes to the basic financial statements, required supplementary information, as appropriate, and this section. All sections must be considered together to obtain a complete understanding of the financial status of the Foundation.

A summary of the Foundation's assets, deferred outflows, liabilities, deferred inflows, and net position is as follows:

|   | 2024<br>(in thousands) | 2023<br>(in thousands) |
|---|------------------------|------------------------|
| Assets                                      |                        |                        |
| Current assets                              | \$ 73,342              | \$ 63,449              |
| Noncurrent assets                           |                        |                        |
| Restricted cash and cash equivalents        | 20                     | 5                      |
| Accounts receivable, net of current portion | 2,312                  | 2,313                  |
| Lease receivables, net of current portion   | 92,578                 | 93,067                 |
| Long-term investments                       | 1,515                  | 1,433                  |
| Capital assets, net                         | 37,096                 | 39,004                 |
| Total noncurrent assets                     | 133,521                | 135,822                |
| Total assets                                | 206,863                | 199,271                |
| Deferred outflows of resources              |                        |                        |
| Net pension liability                       | 6,617                  | 6,750                  |
| Net OPEB liability                          | 843                    | 3,042                  |
| Total deferred outflows of resources        | 7,460                  | 9,792                  |
| Liabilities                                 |                        |                        |
| Current liabilities                         | 14,205                 | 12,131                 |
| Noncurrent liabilities                      | 34,249                 | 39,362                 |
| Total liabilities                           | 48,454                 | 51,493                 |
| Deferred inflows of resources               |                        |                        |
| Net pension liability                       | 4,324                  | 3,404                  |
| Leases                                      | 89,127                 | 91,018                 |
| Net OPEB liability                          | 2,480                  | 493                    |
| Split interest agreements                   | 899                    | 715                    |
| Total deferred inflows of resources         | 96,830                 | 95,630                 |
| Net position                                |                        |                        |
| Net investment in capital assets            | 19,442                 | 20,984                 |
| Restricted unvested grant assets            | 344                    | 222                    |
| Unrestricted                                | 49,253                 | 40,734                 |
| Total net position                          | \$ 69,039              | \$ 61,940              |

# Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

Total assets and deferred outflows were \$214.3 million and \$209.1 million for fiscal years 2024 and 2023, respectively. The increase between 2024 and 2023 of \$5.2 million or 2.5% is attributed to the increase in current assets of \$9.9 million and a decrease of \$2.3 million in deferred outflows related to pension and OPEB liabilities, and \$1.9 million in net capital assets. Net capital assets decreased by \$1.9 million due to additions of \$2.0 million offset by depreciation of \$3.9 million.

Total Assets & Deferred Outflows, Liabilities & Deferred Inflows

Total liabilities and deferred inflows were \$145.3 million and \$147.1 million for the fiscal years 2024 and 2023, respectively. The net decrease of \$1.8 million is mainly due to a decrease of \$3.0 million in total liabilities and an increase of \$1.2 million in deferred inflows. Included in the decrease of \$3.0 million is a decrease in lease liabilities of \$1.3 million due to payments during the fiscal year.

# **Net Position**

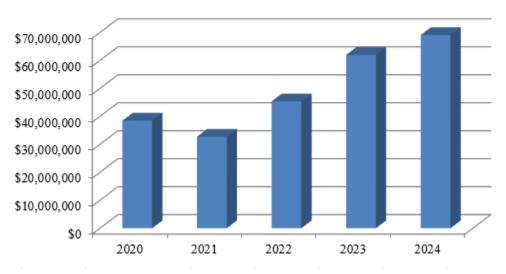

Net position represents the residual interest in the Foundation's assets after liabilities are deducted. The Foundation's net position is as follows:

|  | 2024<br>nousands) | (in tl | 2023<br>housands) |
|--|-------------------|--------|-------------------|
| Net investment in capital assets<br>Restricted | \$<br>19,442      | \$     | 20,984            |
| Expendable                                     | 344               |        | 222               |
| Unrestricted                                   | <br>49,253        |        | 40,734            |
| Net position                                   | \$<br>69,039      | \$     | 61,940            |

Net position increased by 11.5% or \$7.1 million primarily in unrestricted entrepreneurial activities of the Foundation as well as program activities. Net investment in capital assets decreased by \$1.5 million or 7.2%.

| Other nonoperating expenses          |        | (100)     |        | (3,628)   |
| Net nonoperating revenues (expenses) |        | 3,655     |        | 1,010     |
| Change in net position               |        | 7,099     |        | 16,608    |
| Net position                         |        |           |        |           |
| Net position, beginning of year      |        | 61,940    |        | 45,332    |
| Net position, end of year            | \$     | 69,039    | \$     | 61,940    |

# Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

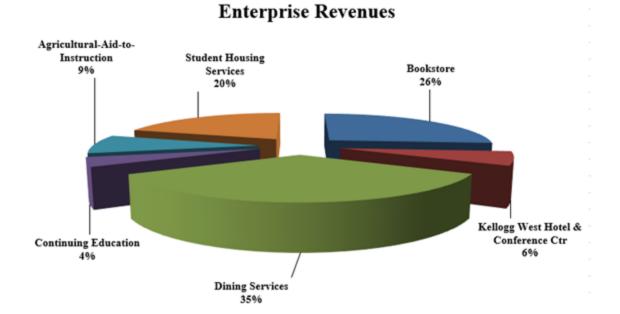

During the fiscal year 2024, total operating revenues decreased 1.6% or \$1.6 million as educational activities decreased by \$9.9 million but all other areas increased by \$8.3 million in total. Operating expenses increased 12.7% or \$10.6 million because of the increase in enterprise and grant and contracts activities.

The net nonoperating revenues were approximately \$3.7 million. Net investment gain for the year was approximately \$5.0 million as the market continued to produce positive gains.

Operating revenues also include grants and contracts awarded by governmental and private institutions. Amounts administered by the Foundation are recorded as revenue and expense in the financial statements.

Auxiliary enterprise operating revenues consist of the following programs:

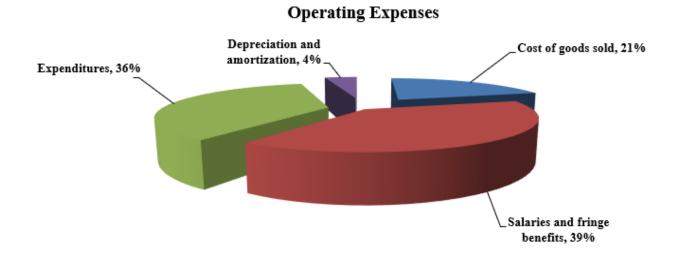

# **Operating Revenues**

10

#### Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

The Foundation entered into a master operating agreement and various supplemental operating agreements with the Trustees of the California State University in July 2018, on behalf of the University that expires in February 2025 and allows the Foundation to operate various activities including the above enterprise activities. All activities of the Foundation are designed to support students, faculty and staff by providing convenient goods and services at reasonable prices. These services provide additional resources and support services to further the University's mission.

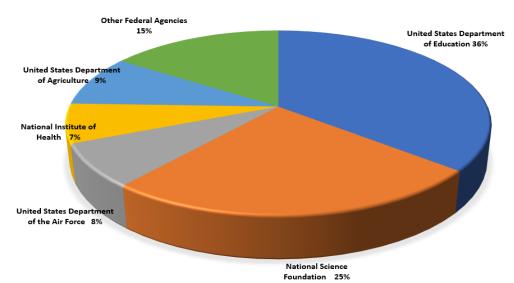

In fiscal year 2024, operating expenses consist of cost of goods sold of \$19.3 million, salaries and fringe benefits of \$36.4 million, payments to vendors of \$34.1 million, and depreciation and amortization of \$3.9 million.

# **Grants and Contracts**

The Foundation is the recipient of all externally-funded sponsored projects awarded on behalf of California State Polytechnic University, Pomona. For the fiscal year 2023-24, University faculty and staff have secured over \$23.3 million in external funds representing 153 projects.

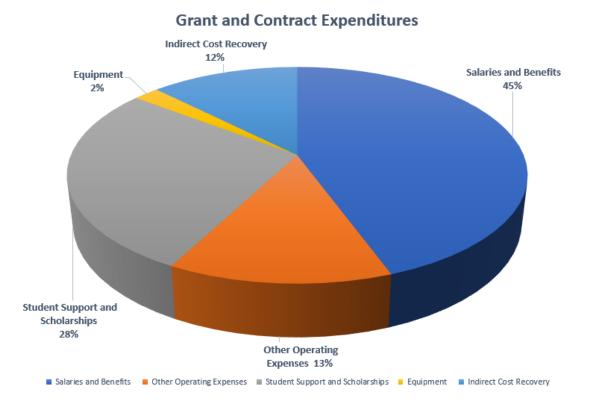

Federal grant and contract awards received represents 71% of the sponsored program activity and includes support from a variety of agencies including:

### Management's Discussion and Analysis ("MD&A") Year Ended June 30, 2024

During the last two fiscal years, grants and contracts expenditures totaled \$41.4 million consisting of federal grants and contracts of \$29.2 million, state grants and contracts of \$8.0 million, and non-governmental grants and contracts of \$4.2 million. Expenditures relating to grant and contract projects consisted of the following items:

The total amount of indirect cost recovery income collected from grant and contract projects totaled \$5.2 million in fiscal year 2023-24 and 2022-23. This income is used to pay for the pre-award operating costs of the Office of Research and Sponsored Programs and the Foundation's post award administrative fee, with the excess being returned to Academic Affairs for distribution back to the Academic/University units that generated the activity.

# **Factors Impacting Future Periods**

The effects of the pandemic and declining population trends have had continued influence within the higher education industry. Students enrollment, future capital considerations, as well as inflation, affect future financial presentations. However, the impact of the implementation of these to the statements of the Foundation have not been assessed at this time. **Basic Financial Statements**

# Notes to Financial Statements June 30, 2024

# Note 1 - Organization

Cal Poly Pomona Foundation, Inc. (the "Foundation") was organized as a nonprofit corporation and auxiliary organization of California State Polytechnic University, Pomona (the "University") in 1966. The Foundation assists the University in several ways, through the development and administration of research and educational grants and contracts; conducting enterprise activities including dining services, bookstore/retail, a conference center/hotel, apartment style housing, continuing education, and agricultural aid to instruction; the management of Foundation programs and real estate activities; the development and administration of the Affordable Faculty/Staff housing Program, a research park, special programs, and other similar activities on behalf of the University.

# Note 2 - Summary of significant accounting policies

# Financial reporting entity

The Foundation is a legally separate tax-exempt component unit of the University. The University is part of the California State University ("CSU") system. Costs are allocated to specific programs and activities where applicable. Costs not identified with specific activities that relate to the full scope of the Foundation's activities are allocated to general operations.

The Foundation's Board appointments require approval from the University President, and as a result, the Foundation follows the reporting principles promulgated by the Governmental Accounting Standards Board ("GASB"). The basic financial statements present the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, Statement of Cash Flows, Statement of Fiduciary Net Position, and Statement of Changes in Fiduciary Net Position (if applicable) of the Foundation. These statements do not purport to present financial information of the CSU system as a whole.

The Foundation is the trustee, or fiduciary, for assets that belong to students through the Bronco Bucks program. The Foundation is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The Foundation excludes these activities from their financial statements because the Foundation cannot use these assets to finance its operations.

# Basis of presentation

The Foundation records revenue in part from assisting the University in various activities as described in Note 1 above and accordingly, has chosen to present its basic financial statements using the reporting model for special-purpose governments engaged only in business-type activities. This model allows all financial information for the Foundation to be reported in a single column each year in each of the basic financial statements. The effect of any internal activity between funds or groups of funds has been eliminated from these basic financial statements.

# Basis of accounting

The accompanying basic financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"), as prescribed by the GASB. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Fiduciary fund financial statements include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position, if applicable. The Foundation's fiduciary funds only include

# Notes to Financial Statements June 30, 2024

Custodial Funds, which are used to report fiduciary activities where the Foundation does not control the assets, intended for the benefit of the students. These assets are not held in a trust and are utilized by students through charges on campus on the Bronco Bucks cards. The Custodial Funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting in accordance with GASB Statement No. 84, *Fiduciary Activities*.

# Classification of current and noncurrent assets and liabilities

The Foundation considers assets to be current that can reasonably be expected, as part of its normal business operations, to be converted to cash and be available for liquidation within twelve months of the date of the statement of net position. Liabilities that reasonably can be expected, as part of normal Foundation business operations, to be liquidated within twelve months of the date of the statement of net position are considered to be current. All other assets and liabilities are considered to be noncurrent.

# Federal grants and contracts

The Foundation serves as administrator for various grants and contracts awarded by governmental and private institutions. Amounts administered by the Foundation are recorded as revenue and expense, respectively, in the financial statements.

# Cash and cash equivalents

The Foundation considers all highly-liquid investments with an original maturity date of three months or less to be cash equivalents.

# Accounts receivable

Accounts receivable include receivables due from federal, state and local governments for contract and grant reimbursements. Accounts receivable also include receivables from enterprise sales and services and for real estate rents and leases. Accounts receivable are stated at unpaid balances, less an allowance for doubtful accounts. The Foundation provides for losses on accounts receivable using the allowance method. The allowance is based on the length of time the receivable has been outstanding.

# Leases receivable

Leases receivable include receivables that are recognized at the net present value of the leased assets, at a borrowing rate either explicitly described in the lease agreement or as implicitly determined by the Foundation, reduced by principal payments received.

# Inventories

Inventories are presented at the lower of cost or net realizable value based on the average cost method and are expensed when used. Inventory consists of textbooks held for resale in the bookstore, ancillary instructional materials, apparel and other supplies held for educational purposes.

# Investments

Investments are reflected at fair value using quoted market prices or net asset value ("NAV"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Gains and losses are included in the Statement of Revenues, Expenses, and Changes in Net Position as investment income, net.

The Foundation's general investment policy authorizes the investment of excess funds in a range of investments to seek an average total annual return of 2.0% plus the percentage change in the greater Higher Education Price Index ("HEPI").

# Notes to Financial Statements June 30, 2024

These investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and that such change could materially affect the financial statements. Although the market value of investments is subject to fluctuations, management believes the investment policies are prudent for the long-term welfare of the Foundation.

# Lease assets

Lease assets are assets which the Foundation leases for a term of more than one year. The value of the lease assets is determined by the net present value of the leases using the interest rate implicit in the lease, or if not determinable, the Foundation's incremental borrowing rate at the time of the lease agreement, amortized over the term of the lease.

# **Capital assets**

Capital assets are stated at cost or estimated historical cost if purchased or if donated, at estimated acquisition value at date of donation. Capital assets with a value of less than \$5,000 are not capitalized. Title to all assets, whether purchased, constructed, or donated, is held by the Foundation or title to an asset is transferred to the University and not included in the Foundation's capital assets. Depreciation is determined using the straight-line method over the estimated lives of the assets ranging from 3 to 40 years. Leasehold improvements are amortized using the straight-line method over the shorter of their estimated useful lives or the term of the lease. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its life are not capitalized.

#### **Deferred outflows of resources**

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then.

The deferred outflows of resources related to the net pension and other postemployment benefit ("OPEB") liabilities resulted from changes in actuarial assumptions, contributions to the pension and OPEB plans made subsequent to the measurement date of the actuarial valuations for the pension and OPEB plans, net difference between projected and actual earnings on plan investments, and differences between expected and actual actuarial experience in measuring plan liabilities. In addition, deferred outflows related to the net pension liability resulted in changes in its proportionate share of the net pension liability, as well as differences between actual contributions and its proportionate share of contributions.

#### Unearned revenue

Unearned revenue consists primarily of funds received in advance of earnings related to enterprise activities and continuing education.

# Other liabilities

Other liabilities consist of grant and contracts funds received in advance of expenditures and the remainder interest associated with charitable remainder trust agreements.

# Pension liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employees' Retirement System ("CalPERS") plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported

# Notes to Financial Statements June 30, 2024

by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

# Net OPEB liability

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, the fiduciary net position of the Foundation's plans and additions to/ deductions from the Plans' fiduciary net position have been determined by Actuarial Standards of Practice and applicable Federal and State laws.

# Unitrust liability

The Foundation administers irrevocable charitable remainder trusts that provide for the payment of lifetime distributions to the trustors or other designated beneficiaries. Upon the demise of the lifetime beneficiary, the trusts and gift annuities provide for the distribution of assets to the Foundation for the benefit of the campus. Remainder trust and gift annuity funds designated to the campus are recorded as deferred inflow per GASB 81 in the accompanying financial statements in the years received and as a donation in the year the trust matures. The fair value of the trusts' assets has been included in the accompanying statement of net position and a corresponding liability has been recorded to reflect the present value of required lifetime payments to the named beneficiaries.

# **Deferred inflows of resources**

Deferred inflows of resources represent an acquisition of net position by the Foundation that is applicable to a future period and thus, will not be recognized as an inflow of resources (income) until then. The Foundation has a deferred gain on split interest agreements with charitable trusts and an advance refunding, resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The deferred inflows of resources related to the net pension and OPEB liabilities resulted from changes in actuarial assumptions, differences between expected and actual experience, and net difference between projected and actual earnings on pension and OPEB plan investments. In addition, deferred inflows related to the net pension liability include changes in its proportionate share of the net pension liability and difference between contributions and proportionate share of contributions.

Deferred inflows also include changes as impacted by the implementation of GASB Statement No. 87 for single model lease accounting as the lessor.

# Net position

The Foundation's net position is classified into the following categories:

*Net investment in capital assets* - Capital assets, net of accumulated depreciation, amortization, and outstanding principal balances of debt and lease liabilities attributable to the acquisition, construction, or improvement of those assets.

*Restricted - expendable -* Amounts subject to externally imposed conditions that can be fulfilled by the actions of the Foundation or by the passage of time. When both restricted and unrestricted resources are available for use, it is the Foundation's policy to use restricted resources first, then unrestricted resources as they are needed.

# Notes to Financial Statements June 30, 2024

*Unrestricted* - All other categories of net position. In addition, unrestricted net position may be designated for use by the Foundation's Board of Directors.

# Classification of revenues and expenses

The Foundation considers operating revenues and expenses in the Statement of Revenues, Expenses, and Changes in Net Position to be those revenues and expenses that result from exchange transactions or from other activities that are connected directly to the Foundation's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as nonoperating revenues and expenses in accordance with GASB Statement No. 33. These nonoperating activities include the Foundation's net investment income, interest expense, transfer of assets to the University, and transfer of assets to the Philanthropic Foundation.

# Income taxes

The Foundation is organized under the nonprofit public benefit laws of California and is recognized as an exempt organization for both federal and California purposes under Section 501(c)(3) and 23701(d), respectively.

The Foundation has evaluated its tax positions and the certainty as to whether those tax positions will be sustained in the event of an audit by taxing authorities at the federal and state levels. The primary tax positions evaluated are related to the Foundation's continued qualification as a taxexempt organization and whether there are unrelated business income activities conducted that would be taxable. Management has determined that all income tax positions are more likely than not of being sustained upon potential audit or examination; therefore, no disclosures of uncertain income tax positions are required.

# Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows, revenues, and expenses in the accompanying basic financial statements. Actual results could differ from those estimates.

# Subsequent events

The Foundation has evaluated subsequent events through September 20, 2024, which is the date the financial statements were available to be issued.

# Note 3 - Credit risk

# Custodial credit risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Foundation's deposits may not be returned. The cash and cash equivalents of the Foundation are maintained at financial institutions and are fully insured up to \$250,000 per financial institution or collateralized.

Securities Investor Protection Corporation ("SIPC") protects against the loss of cash and securities - such as stocks and bonds - held by a customer at a financially-troubled SIPC member brokerage firm. The limit of SIPC protection is \$500,000, which includes a \$250,000 limit for cash.

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments that are in the possession of the counterparty. As of June 30, 2024, all investments are in the name of the Foundation, and the Foundation is not exposed to custodial credit risk associated with its investments.

# Notes to Financial Statements June 30, 2024

Following is a list of acceptable instruments to invest in as of June 30, 2024:

| Description                           | General portfolio |
|---------------------------------------|-------------------|
|                                       |                   |
| Money market funds                    | Х                 |
| Certificate of deposits               | Х                 |
| Common and preferred stocks           |                   |
| U.S. Government or agency obligations | Х                 |
| International bonds                   | Х                 |
| Mortgage-backed securities            | Х                 |
| Corporate debt                        | Х                 |
| Repurchase agreements                 | Х                 |
| Mutual funds (debt or equity)         | Х                 |
| Real Estate Investment Trusts         |                   |
| Real estate                           | Х                 |
| Real assets                           | Х                 |
| Alternative investments               | Х                 |
| Hedge funds                           |                   |
| Private equity                        |                   |

# Interest rate risk

This is the risk of loss due to the fair value of an investment falling due to rising interest rates. As a means of limiting its exposure to fair value losses from rising interest rates, in accordance with its investment policies, the Foundation limits and diversifies non-investment grade debts. The limit is 10%, or less, of the market value of fixed-income asset class in the portfolio and must invest in mutual or exchange-traded funds.

As of June 30, 2024, all mutual funds invested in fixed income securities, with total fair value of \$200,717, have a duration between one and four years, and were included in general investments.

# Credit risk

This is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations. This is measured by the assignment of ratings by nationally recognized statistical rating organizations. Specifically, the Foundation's investment policy requires that corporate debt must carry an investment grade rating by at least two of three rating agencies at the time of purchase. The debt mutual funds are unrated.

The Foundation had the following investments subject to credit risk:

| Investment type                              | Rating<br>(S&P/Moody's) | F  | air value      |
|--|-------------------------|----|----------------|
| Fixed income mutual funds<br>Corporate bonds | AA- through AA+         | \$ | 200,717        |
| US treasury securities                       | BB- through BB+<br>AAA  |    | 9,973,202<br>- |

# Notes to Financial Statements June 30, 2024

|  | <br>1 year           | 1  | - 5 years | 5 - 1 | 0 years | Ove | er 10 years  | <br>Total                  |
|--|----------------------|----|-----------|-------|---------|-----|--------------|----------------------------|
| Fixed income mutual funds<br>Corporate bonds | \$<br>-<br>9,751,519 | \$ | 200,717   | \$    | -       | \$  | -<br>221,683 | \$<br>200,717<br>9,973,202 |
|  | \$<br>9,751,519      | \$ | 200,717   | \$    | _       | \$  | 221,683      | \$<br>10,173,919           |

At June 30, 2024, the Foundation's fixed income securities have the following maturities:

# Concentration of credit risk

Financial instruments which potentially subject the Foundation to concentrations of credit risk include cash and cash equivalents. The Foundation maintains its cash and cash equivalents and investments with high-credit quality financial institutions, which typically exceeds the federally insured limits. The Foundation has not experienced any losses on such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

The Foundation's investments are subject to various risks, such as interest rate, credit and overall market volatility risks. Further, because of the significance of the investments to the Foundation's financial position and the level of risk inherent in most investments, it is reasonably possible that changes in the values of these investments could occur in the near term and such changes could materially affect the amounts reported in the financial statements. Management is of the opinion that the diversification of its invested assets among the various asset classes should mitigate the impact of changes.

In order to maximize returns in the investment portfolio while preserving capital, the Foundation's investment policy provides for a range asset allocation as follows:

| Asset class                 | Target asset mix<br>table general<br>investments range |
|-----------------------------|--|
| Equities                    | 10 - 65%   |
| Domestic equities           | N/A  |
| International equities      | N/A  |
| Fixed income - mutual funds | 40 - 85%   |
| Cash equivalents            | 0 - 20%  |
| Real estate                 | 0 - 10%  |
| Real assets                 | 0 - 10%  |
| Alternative investments     | 0 - 25%  |
| Hedge funds                 | N/A  |
| Private equity              | N/A  |

As of June 30, 2024, the Foundation was not exposed to concentration of credit risk as there were no investments in a single issuer in excess of 5%.

# Notes to Financial Statements June 30, 2024

#### Note 4 - Cash, and cash equivalents

Cash and cash equivalents as of June 30, 2024, are composed of the following:

| Cash on hand<br>Cash in bank<br>Cash and cash equivalents | \$<br>2,494<br>998,791<br>3,309,381 |
|---|-------------------------------------|
| Restricted cash and cash equivalents                      | \$<br>19,780<br>4,330,446           |

#### Cash in banks

The *California Government Code* requires California banks and savings and loan associations to secure the Foundation's deposits. Obligations pledged to secure deposits must be delivered to an institution other than the institution in which the deposit is made; however, the trust department of the same institution may hold them. Written custodial agreements are required that provide, among other things, that the collateral securities are held separate from the assets of the custodial institution. The pledge to secure deposits is administered by the California Superintendent of Banks. The market value of pledged securities must equal 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure an agency's deposits by pledging first trust deeds or first mortgages having a value of 150% of an agency's total deposits. All such collateral is considered to be held by the pledging financial institutions' trust departments or agents in the name of the Foundation. At June 30, 2024, cash held by financial institutions for the Foundation of \$6,242,623 was insured and collateralized as described above. At June 30, 2024, the book balance for the Foundation was \$998,791, cash and cash equivalents was \$3,309,381 and restricted cash and cash equivalents was \$19,780.

Financial instruments that potentially subject the Foundation to concentrations of credit risk consist principally of receivables and cash accounts in financial institutions. The total cash balances are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 per institution. As of June 30, 2024, the Foundation's bank deposits exceeded the balance insured by the FDIC by \$5,992,623. The Foundation monitors its financial institutions and the concentration of credit risk on a regular basis and does not anticipate nonperformance by the financial institutions.

#### Note 5 - Investments

At June 30, 2024, investments consist of the following:

| Common stocks                | \$<br>26,631,688 |
|------------------------------|------------------|
| Corporate bonds              | 9,973,202        |
| Indexed annuity              | 238,330          |
| Fixed income mutual funds    | 200,717          |
| Local agency investment fund | 104,266          |
| Alternative investments      | <br>7,224,929    |
| Total investments            | <br>44,373,132   |
| Less short-term investments  | <br>42,858,571   |
|                              | <br>42,000,071   |
| Long-term investments        | \$<br>1,514,561  |

# Notes to Financial Statements June 30, 2024

# Fair value measurements

Investments are presented in the financial statements at fair value in accordance with GAAP. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. Valuation techniques are used to determine fair value which consists of the market, cost and income approach.

In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs is used to measure fair value into three broad levels, which are described below:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.
- Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The carrying value of cash, receivables, and payables approximates fair value as of June 30, 2024 due to the relative short maturities of these instruments.

At June 30, 2024, the investments are carried at fair value and are classified in the table below in one of the three categories as described above:

|                              | <br>Level 1      | <br>Level 2     | Le | evel 3 | mea  | estments<br>sured at<br>NAV | <br>Total        |
|------------------------------|------------------|-----------------|----|--------|------|-----------------------------|------------------|

| Total                        | \$<br>27,070,735 | \$<br>9,973,202 | \$ | -      | \$ 7 | ,329,195                    | \$<br>44,373,132 |

# Notes to Financial Statements June 30, 2024

Common stocks, indexed annuities, and fixed income mutual funds categorized as Level 1 are valued based on prices quoted in active markets for those securities. Corporate bonds and U.S. treasury securities categorized as Level 2 are valued using a matrix pricing technique that values securities based on their relationship to benchmark quoted prices.

At June 30, 2024, the Foundation has the following investments in limited partnerships that calculate net asset value ("NAV") per share:

| Description                    | NAV |           | -  | nfunded<br>nmitments | Redemptior<br>terms | n Redemption notice period |

|                                | \$  | 7,224,929 | \$ | 1,604,067            | -                   |                            |

#### Investment earnings

Net investment income was \$4,983,792 for the year ended June 30, 2024, which is comprised of interest, dividends, realized gains and losses, and unrealized gains and losses due to changes in the fair value of investments held at year-end, net of investment fees. Investment income or losses are distributed ratably to participating funds.

# Notes to Financial Statements June 30, 2024

### Note 11 - Transactions with related parties

### California State Polytechnic University, Pomona

The Foundation and the University provide various services on each other's behalf. Such services are appropriately billed. At June 30, 2024, receivables from other activities and due from the University are \$13,093,348. Accounts payable include \$1,445,740 due to the University at June 30, 2024.

The Foundation made payments of \$11,597,525 to the University during the current fiscal year based on the agreements. Amounts paid to the Foundation during fiscal year 2023-24 totaled \$21,813,503.

During fiscal year 2023-24, the Foundation transferred assets totaling \$224,273 comprised of building improvements, equipment and renovations to various facilities at the University. The University assumed ownership and management of the building improvements, equipment and facilities.

### Cal Poly Pomona Philanthropic Foundation ("Philanthropic Foundation")

The Foundation and Philanthropic Foundation are subject to a Support Services Agreement, effective July 1, 2019, wherein the Foundation provides fiscal and administrative services to the Philanthropic Foundation. Such services are appropriately billed. Amounts paid by the Foundation during fiscal year 2023-24 totaled \$497,562. Amounts paid to the Foundation during fiscal year 2023-24 totaled \$2,997,262.

At June 30, 2024, accounts payable due to the Philanthropic Foundation totaled \$4,206. Accounts receivable due from the Philanthropic Foundation totaled \$576,420.

### Cal Poly Pomona Associated Students ("ASI")

The Foundation and ASI provide various services on each other's behalf. Such services are appropriately billed. Amounts paid by the Foundation during fiscal year 2023-24 totaled \$945,833. Amounts paid to the Foundation during fiscal year 2023-24 totaled \$267,440.

At June 30, 2024, receivables from other activities and due from ASI are \$208,670. Accounts payable due from the Foundation to ASI at June 30, 2024 totaled \$376,398.

# Note 12 - Pension plan - California Public Employees' Retirement System ("CalPERS")

The Foundation participates in a cost sharing multiple-employer defined benefit plan through the CaIPERS which covers substantially all regular full-time employees of the Foundation. CaIPERS acts as a common investment and administrative agent for participating public entities with the state of California and reports information to the Foundation in accordance with reporting standards established by the GASB.

### **Plan description**

Qualified employees are eligible to participate in the Public Agency Cost-Sharing Multiple Employer Plan under the CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The Public Agency Cost-Sharing Multiple-Employer Plan is comprised of a Miscellaneous Risk Pool and a Safety Risk Pool. Individual employers may sponsor more than one Miscellaneous or Safety plan. The Foundation sponsors three Miscellaneous Risk Pool plans, however, the information presented represents the sum of the allocated pension amounts for each of the Foundation's respective plans (the "Plan"). The Plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

### **Benefits provided**

The Plan provides service retirement and disability benefits, annual cost of living adjustments and death benefits to eligible plan members. Benefits are based on years of service credit, a benefit factor and the member's final compensation. All members are eligible for employment related disability benefits regardless of length of service and nonduty disability benefits after five years of service. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The Post-Retirement Death Benefit is a one-time payment made to a retiree's designated survivor or estate upon the retiree's death. The Basic Death Benefit is a lump sum paid to any member's beneficiary if the member dies while actively employed. The spouse or registered domestic partner of a deceased member, who was eligible to retire for service at the time of death, may elect to receive the Pre-Retirement Option 2W Death Benefit in lieu of the Basic Death Benefit lump sum. The Pre-Retirement Option 2W Death Benefit is a monthly allowance equal to the amount the member would have received if they had retired for service on the date of death and elected Option 2W, the highest monthly allowance a member can leave a spouse or domestic partner. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The First Tier Plan closed to new entrants on or after June 26, 2011. The Second Tier Plan was closed to new entrants on or after December 31, 2012.

The Plan provisions and benefits in effect at June 30, 2024, are summarized as follows:

|                                      |                    | Miscellaneous Risk Pool |                    |

# Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined annually through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Foundation is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2024 are presented above and the total Foundation contributions were \$2,126,518.

# Pension liabilities, pension expense, deferred outflows of resources, and deferred inflows of resources related to pensions

As of June 30, 2024, the Foundation reported net pension liabilities for its proportionate share of the Miscellaneous Risk Pool net pension liability totaling \$14,847,664. The net pension liability was measured as of June 30, 2023. The Foundation's proportion of the net pension liability was based on a projection of the Foundation's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2024, the Foundation's proportion was 0.0029693, which increased from 0.0022859 in the prior year.

For the year ended June 30, 2024, the Foundation recognized pension expense of \$4,651,637. At June 30, 2024, the Foundation reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | rred Outflows<br>Resources | erred Inflows<br>Resources |
|--|----------------------------|----------------------------|

The deferred outflow of resources related to pensions resulting from Foundation contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025.

The net differences between projected and actual earnings on plan investments is amortized over a five-year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement period on a net basis.

All other deferred inflows of resources and deferred outflows of resources are amortized over the expected average remaining service life ("EARSL") of the plan participants. The EARSL for the Miscellaneous Plan for the June 30, 2023 measurement date is 3.8 years.

The amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed 3.8 years.

The deferred inflows of resources and outflows of resources will be recognized in pension expense as follows:

| Years Ending June 30 | (  | rred Outflows<br>Inflows) of<br>Resources |
|----------------------|----|---|
| 2025                 | \$ | (1,140)                                   |
| 2026                 |    | (1,140)                                   |
| 2027                 |    | 38,214                                    |
| 2028                 |    | 130,041                                   |
|                      | \$ | 165,975                                   |

During the fiscal year ended June 30, 2024, the Foundation made contributions to the pension plan after the measurement date of \$2,126,518, which will reduce the deferred outflows of resources and deferred inflows of resources above. Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner in accordance with GASB 68.

# Changes in benefit terms

In 2022, SB 1168 increased the standard retiree lump sum death benefit from \$500 to \$2,000 for any death occurring on or after July 1, 2023. For pooled plans this is a Class 3 benefit and there is no normal cost surcharge. The impact on the unfunded liability is included in the pool's differences between expected and actual experience.

### Changes in assumptions

Amounts reported for the measurement period ended June 30, 2023 reflect no changes.

# Actuarial methods and assumptions

For the measurement period ended June 30, 2023, the total pension liability was determined by rolling forward the June 30, 2022 actuarial accounting valuation. The June 30, 2023 total pension liability was based on the following actuarial methods and assumptions:

| Actuarial cost method<br>Actuarial Assumptions: | Entry Age Normal in accordance with the requirements of GASB 68 |
|---|---|
| Discount rate                                   | 6.90%   |
| Consumer price Inflation                        | 2.30%   |
| Salary Increases                                | Varies by Entry Age and Service                                 |
| Mortality rate table                            | Derived using CalPERS' Membership Data for all Funds            |
| and review of actuarial                         |   |
| assumptions                                     | Based on December 2017  |
| Post Retirement benefits                        | 2.0% until Purchasing Power Protection Allowance Floor on       |
| increase  | Purchasing Power applies, 2.30% thereafter                      |

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include 15 years of mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

| Asset Class                    | Assumed Asset<br>Allocation | Real Return<br>Years 1 - 10 1,2 |
|--------------------------------|-----------------------------|---------------------------------|
| Global equity - cap-weighted   | 30.00%                      | 4.54%                           |
| Global equity non-cap-weighted | 12.00                       | 3.84                            |
| Private equity                 | 13.00                       | 7.28                            |
| Treasury                       | 5.00                        | 0.27                            |
| Mortgage-backed securities     | 5.00                        | 0.50                            |
| Investment grade corporates    | 10.00                       | 1.56                            |
| High yield                     | 5.00                        | 2.27                            |
| Emerging market debt           | 5.00                        | 2.48                            |
| Private debt                   | 5.00                        | 3.57                            |
| Real assets                    | 15.00                       | 3.21                            |
| Leverage                       | (5.00)                      | (0.59)                          |

The expected real rates of return by asset class are as followed:

1 An expected inflation of 2.30% used for this period.

<sup>2</sup> Figures are based on the 2021-22 Asset Liability Management study.

# Discount rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made

at statutory contribution rates, actuarily determined. Based on these assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the Foundation's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

|                              | N  | let Pension |
|------------------------------|----|-------------|
| Discount Rate                |    | Liability   |
| 1% decrease (5.9%)           | \$ | 23,960,916  |
| Current discount rate (6.9%) |    | 14,847,664  |
| 1% increase (7.9%)           |    | 7,346,675   |

# Plan fiduciary net position

Detailed information about CalPERS Miscellaneous Risk Plan fiduciary net position is available in a separate comprehensive annual financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

# Note 13 - Other postretirement healthcare benefits ("OPEB") plan

### **Plan description**

The Foundation sponsors a single-employer defined benefit postretirement health care plan to pay a portion of the retiree's insurance premiums. Based on the eligibility criteria shown below, this plan allows for employer paid retiree healthcare premiums for the retiree and their dependents. A retiree is eligible to enroll in the Plan on an annual basis during open enrollment or at any time the retiree experiences a qualifying event as defined by COBRA regulations.

Beginning in the fiscal year ended June 2011 the Foundation participated in the Auxiliaries Multiple Employer VEBA (Voluntary Employees' Beneficiary Association). The Auxiliaries Multiple Employer VEBA is a separate 501(c)(9) organization established in August 2010 to assist in funding post-retirement healthcare benefits for recognized auxiliaries of the California State University System. The Auxiliaries Multiple Employer VEBA issues separate audited financial statements. Copies of the annual report may be obtained from Keenan Associates, 2355 Crenshaw Blvd., Suite 200, Torrance, CA 90501.

The Auxiliaries Multiple Employer VEBA Board is comprised of at least three Trustees and no more than 16 Trustees. The Board consists of at least three officers, a Chairman, a Vice Chair and a Past Chair who serve one, one-year term in each officer seat. The Vice Chair is selected by the Nominating Committee and elected by a majority vote of the primary member of the participating auxiliaries. The Trustees of the Board are nominated by their respective auxiliary and elected by a majority vote of the primary member of the primary member of the participating auxiliaries.

### Eligibility and benefits

The Foundation pays a portion of the health care premium for an eligible retiree, eligible retiree plus one and eligible retiree plus two or more dependents. Eligibility is determined as a combination of age and service. The Foundation's portion of the health care premium is fixed at an annual increase of 5% as approved by the Board of Directors. A minimum of 1,720 hours of compensated employment in a regular benefited full time status qualifies as one year of service. Employees who

# Notes to Financial Statements June 30, 2024

retired before July 1, 2004 with at least five years of service and were age 50 or older qualify for 100% of the eligible portion of the premiums paid by the Foundation.

Employees who were hired before October 1, 2004, are at least 50 years of age, and have attained 10 years of service qualify to have 75% of the eligible portion of the premiums paid by the Foundation. For each additional year of service, the Foundation will increase the eligible portion of the premium by 5% until the employee attains 15 years of service and 100% of the eligible portion of the premiums paid by the Foundation. Additionally, employees who are at least 50 years of age and have at least 10 years of service may add together their age and years of service at retirement; when that amount totals 70, the employees qualify for 100% of the eligible portion of the premiums paid by the Foundation.

Employees who were hired on or after October 1, 2004 and before March 1, 2009, are at least 50 years of age, and have attained 10 years of service qualify to have 50% of the eligible portion of the premiums paid by the Foundation and earn an additional 5% for each year of service completed after 10 years of service. Employees reach 100% of the eligible portion of the premiums paid by the Foundation once attaining 20 years of service.

Employees hired on or after March 1, 2009, are ineligible for benefits under the defined benefit healthcare plan for retirees.

# **<u>Pre-Retirement:</u>** CalPERS 2021 Mortality **<u>Post-Retirement:</u>** CalPERS 2021 Mortality

# Long-term expected rate of return

As of June 30, 2023, the long-term expected rates of return for each major investment class in the VEBA's portfolio are as follows:

| Investment<br>class | Target allocation | Long-term<br>expected<br>RRR |
|---------------------|-------------------|------------------------------|
| Equity              | 54.00%            | 4.61%                        |
| Fixed Income        | 38.00%            | 6.56%                        |
| REITs/TIPS          | 8.00%             | 6.85%                        |
|                     | 100.00%           |                              |

The above table shows the target asset allocation in VEBA investment policy.

# **Discount rate**

The discount rate is based on a blend of the long-term expected rate of return on assets for benefits covered by plan assets and a yield or index for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or better for benefits not covered by plan assets.

The arithmetic long-term expected real rates of return by asset class shown above is for the next 10 years. For the years thereafter, returns were based on historical average index real returns over the last 30 years assuming a similar equity/fixed investment mix and a 2.50% inflation rate. Investment expenses were assumed to be 10 basis points per year. These returns were matched with cash flows for benefits covered by plan assets and the Fidelity Municipal GO Index as of June 30, 2023 (Bond Buyer 20-Bond General Obligation index as of June 30, 2022) was matched with cash flows not covered by plan assets to measure the reasonableness of the choice in discount rate.

# Notes to Financial Statements June 30, 2024

Below are the discount rates used and the Bond Buyer 20-Bond GO Index as of measurement dates of June 30, 2023 and 2022:

|                             | June 30, 2023 | June 30, 2022 |
|-----------------------------|---------------|---------------|
| Discount Rate               | 6.50%         | 6.50%         |
| Long-term Rate of Return    | 6.50%         | 6.50%         |
| Fidelity 20yr GO Bond Index | 3.86%         | 3.69%         |

#### Sensitivity analysis

The following presents the Foundation's net OPEB liability if it were calculated using a discount or trend rate that is 1% point lower (5.50%) or 1% higher (7.50%) than the current rate:

Sensitivity of the net OPEB liability to changes in the discount rate:

| Discount | Net OPEB     |                |          |
|----------|--------------|----------------|----------|
| rate     | Liability    | \$ Change      | % Change |
| +1%      | \$ 1,088,519 | \$ (1,349,398) | -55%     |
| Base     | 2,437,917    | -              | 0%       |
| -1%      | 4,542,363    | 2,104,446      | 86%      |

Sensitivity of the net OPEB liability to changes in the trend rate:

|            | Net OPEB     |              |         |
|------------|--------------|--------------|---------|
| Trend Rate | Liability    | \$Change     | %Change |
| +1%        | \$ 4,478,430 | \$ 2,040,513 | 84%     |
| Base       | 2,437,917    | -            | 0%      |
| -1%        | 1,114,064    | (1,323,853)  | -54%    |

### Annual OPEB expense and net OPEB liability

At June 30, 2024, the Foundation reported \$2,437,917 for the net OPEB liability. The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2023. The Foundation's net OPEB liability was based on a projection of the Foundation's covered employee payroll of \$2,428,800.

Plan Fiduciary Net Position (plan assets) was valued as of the measurement date of June 30, 2023 and the total OPEB liability was determined based upon the actuarial valuation as of June 30, 2023. As of June 30, 2023, the Plan Fiduciary Net Position was \$11,229,891.

For the year ended June 30, 2024, the Foundation recognized OPEB income of \$1,167,109. OPEB expense represents the change in the net OPEB liability during the measurement period, adjusted for service cost, interest on the total OPEB liability, expected investment return, net of investment expense, and the deferred recognition of changes in investment gains and losses, actuarial assumptions or methods, and plan benefits.

At June 30, 2024, the measurement of the Total OPEB Liability, plan membership included thirtyseven (37) active plan members and one hundred twenty-one (121) retired members and beneficiaries receiving benefit for a grand total one hundred fifty-eight (158) plan participants.

# Notes to Financial Statements June 30, 2024

# **Deferred outflows/inflows of resources**

|   |    | ed outflows<br>esources |    | erred inflows<br>resources |
|---|----|-------------------------|----|----------------------------|
| Differences between expected and actual experience in the measurement of the total OPEB liability | \$ |                         | \$ | 2,387,126                  |
| Changes in assumptions  | Ψ  | -                       | Ψ  | 92,538                     |
| Net difference between projected and<br>actual earnings on OPEB plan investments                  |    | 842,602                 |    | -                          |
| Contributions to OPEB plan after measurement date   |    | -                       |    | -                          |
| Total   | \$ | 842,602                 | \$ | 2,479,664                  |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Fiscal year<br>ended June 30: | Deferred<br>outflows/(inflows)<br>of resources |
|-------------------------------|--|
| 2025                          | \$ (1,416,113)                                 |
| 2026                          | (746,099)                                      |
| 2027                          | 567,374  |
| 2028                          | (42,224)                                       |
| 2029                          | -  |
| Thereafter                    |  |
|                               | \$ (1,637,062)                                 |

During the fiscal year ended June 30, 2024, the Foundation made contributions to the OPEB plan after the measurement date of \$0, which will reduce the deferred outflows of resources and deferred inflows of resources above. Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net OPEB liability to be recognized in future periods in a systematic and rational manner in accordance with GASB 75. Investment gains or losses are recognized in OPEB expense over a five-year period and economic/demographic gains or losses and assumption changes or inputs are recognized over the average remaining service life for all active and inactive members.

# Note 14 - Commitments and contingencies

# Litigation

The Foundation is subject to certain claims that arise out of the normal operations of the Foundation. In the opinion of management, the Foundation has sufficient liability insurance to cover any such claims, and these matters will not have a material effect on the financial position of the Foundation if disposed of unfavorably.

**Required Supplementary Information** 

# Cal Poly Pomona Foundation, Inc. California Public Employees Retirement Plan Schedule of Foundation's Proportionate Share of the Net Pension Liability Plan Year Ended June 30, 2024

Note: Accounting standards require presentation of 10 years of information. However, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule as future data becomes available.

Changes of Benefit Terms: The CalPERS Plan had no changes in benefit terms since the previous valuation.

*Note:* In 2022, SB 1168 increased the standard retiree lump sum death benefit from \$500 to \$2,000 for any death occuring on or after July 1, 2023. For pooled plans this is a Class 3 benefit and there is no normal cost surchange. The impact

on the unfunded liability is included in the pool's differences between expected and actual experience.

Changes in Assumptions: The CalPERS Plan had no assumption changes in 2023.

See Independent Auditor's Report.

Notes to the OPEB Required Supplementary Information:

The actuarial methods and assumptions used to calculate the total OPEB liability are described in Note 13 to the financial statements.

The average per capita claims cost was updated to reflect the actual 2023 and 2024 premiums. The health care cost trend rate was updated to reflect 2023 industry survey data. The mortality, withdrawal, and retirement tables were updated to reflect the latest 2021 CalPERS Experience Studies. The population for curving and morbidity factors have also been updated to the 2021 CalPERS Experience Studies. Inflation was updated from 2.26% to 2.5%. All other assumptions remained the same.

The net OPEB liability amount presented for each fiscal year was determined as of the fiscal year-end.

The schedules are intended to present ten years of data. Additional years of data will be presented as they become available.

The Foundation has not presented a Schedule of Foundation Contributions since an actuarially determined contribution has not been calculated and there is no statutorily determined contribution applicable to the Foundation.

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors Cal Poly Pomona Foundation, Inc. (A California State University Auxiliary Organization)

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards*"), the financial statements of the business-type activities and the aggregate remaining fund information of the Cal Poly Pomona Foundation, Inc. (the "Foundation"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Foundation's basic financial statements, and have issued our report thereon dated September 20, 2024.

# Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Foundation's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
